

Team Grade for LIB 103 (15% of Final Grade)

The team grade is based on 2 components:

1) Completion of team activities (worth 8 points)

2) Your teammates' and instructor's perceptions of your contribution to the team activities (worth 7 points)

Completion of each of the following activities is worth **1 point for each activity**.

"Hey! Why all this work for only 1 point?" These in class activities are used to **develop your learning** and for the instructor to **assess your learning**.

Activities you have completed are listed on your grade status report. Grade status reports are passed out or e-mailed to you periodically. If you have that activity listed on your status report you have received 1 point for that activity.
