

**Dr. Niles Eldredge**

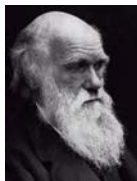

Curator of Paleontology, American  
Museum of Natural History

# *Darwin: Discovering The Tree of Life*

**Wednesday, September 17 at 7:30 p.m.  
Burney Center (UNCW)**

Dr. Niles Eldredge, Curator of Paleontology at the American Museum of Natural History, is author of more than 20 books on paleontology and evolutionary theory. Dr. Eldredge was co-author (with the late Stephen Jay Gould) of the paradigm-changing theory of 'punctuated equilibrium.' He is also creator of the exhibition *Darwin*, which opened at the American Museum in 2005 and has since traveled to museums around the world.

**ELC** A UNCW Evolution Learning Community 2008-2009 Darwin  
Scholars Lecture
