

The background is a blurred image of a library with bookshelves. Overlaid on this are various white, hand-drawn style icons including mathematical symbols like plus (+), minus (-), multiplication (x), and division (÷), as well as scientific symbols like sigma (Σ), pi (π), and lambda (λ). There are also icons of a microscope, a magnifying glass, a lightbulb, and a person. The text is centered over this background.

Modification of Signature Assignment

- *Assignment Learning Outcomes:*
- Emphasize a healthcare administrator's ability to utilize and apply epidemiological health information
- Focus on the ability to make **“well-informed” evidenced based** decisions rather than “appropriate” ones
- Incorporate a population health perspective into the organization's strategic planning process
- **Acknowledge that organizations have a responsibility to address health literacy to impact healthcare equity among local populations**
