

## Visible Body Atlas

Open the Body Atlas database and select a region under “views” (along the top of the page).

Select a specific view.

You can search by name to get info by clicking on “Anatomy Search” along the bottom of the page. Or, click on a body part (by selecting “Multi-Select” along the bottom of the page).

Access detail info by exploring the option that will appear in the upper right-hand corner of the screen.

You can even doodle and take notes by clicking on “Annotate” along the bottom of the page.
